La sottoscritta Agenzia 490 S. LAZZARO della compagnia di assicurazioni: REAL MUTUA ASSICURAZIONI;

DICHIARA

che la ditta LE.MA S.r.l. - Trucks and Buses Spare Parts con sede in Bologna, Via del Vetraio 26, è assicurata per la Responsabilità Civile "Prodotti" verso Terzi con polizza n. 2016/03/2268436 avente le seguenti caratteristiche:

Massimale: € 2.000.000,00

Validità territoriale: Mondo intero (USA, Canada e Messico)

Prodotti assicurati: parti di ricambio per autoveicoli

Le Condizioni Generali e Particolari sono stabilite dalla Polizza di Assicurazione della Responsabilità Civile verso Terzi "Prodotti" dell'ANIA - Associazione Nazionale fra le Imprese Assicuratrici

ENG

The undersigned Agency 490 S. LAZZARO of the insurance company: REAL MUTUA ASSICURAZIONI;

DECLARES

that the company LE.MA S.r.l. - Trucks and Buses Spare Parts located in Bologna, Via del Vetraio 26, insured itself for Civil Liability towards third-parties, by the contract n. 01267600 having the following conditions:

Maximum refund: € 2.000.000,00

Territory of validity: Worldwide (USA, Canada and Mexico)

Products covered by insurance: spare parts for vehicles

The General and Specific Conditions of this contract are included in the Insurance Contract for Civil Liability towards third-parties, stated by ANIA - Insurance Companies National Association.

CERTIFICATO DI SISTEMA DI GESTIONE

Certificato n.:
50651-2009-AQ-ITA-SINCERT

Data Prima Emissione:
30 marzo 2009

Validità:
31 marzo 2024 – 30 marzo 2027

Si certifica che il sistema di gestione di

DUBHE S.r.l.

Via Sestriere, 3 - 10060 Candiolo (TO) - Italia

e i siti come elencati nell'Appendice che accompagna questo certificato

È conforme allo Standard:

ISO 9001:2015

Questa certificazione è valida per il seguente campo applicativo:

**Commercializzazione di motori originali per mezzi di trasporto per persone, merci e altro.
Commercializzazione di ricambi originali e non, a marchio proprio di parti di motore per
mezzi di trasporto per persone, merci e altro. Fabbricazione e commercializzazione di
ricambi per autocarri ed autobus
(IAF 29, 22, 18)**

Luogo e Data:
Vimercate (MB), 03 aprile 2025

MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:
50651-2009-AQ-ITA-SINCERT

Initial certification date:
30 March 2009

Valid:
31 March 2024 – 30 March 2027

This is to certify that the management system of

DUBHE S.r.l.

Via Sestriere, 3 - 10060 Candiolo (TO) - Italy

and the sites as mentioned in the appendix accompanying this certificate

has been found to conform to the Quality Management System standard:

ISO 9001:2015

This certificate is valid for the following scope:

Sales of original engines for vehicles for transport of persons, goods and other. Sales of original spare parts and non original spare parts under own brand for engines for vehicles for transport of persons, goods and other. Manufacture and trade of trucks and buses spare parts (IAF 29, 22, 18)

Place and date:
Vimercate (MB), 03 April 2025

SGQ N° 003 A
SGA N° 003 D
SGE N° 007 M
SCR N° 004 F

EMAS N° 009 P

ITA

Il marchio **Heavybelt** (HB) è stato fondato nel 2020, dando il via a un processo di ricerca e sviluppo dedicato alle nuove linee di prodotto che rivestono un ruolo centrale nella manutenzione straordinaria dei veicoli. Tra queste, spiccano le cinghie, i tenditori e le pulegge.

Heavybelt (HB) è un marchio private label distribuito da Dubhe Srl.

Dubhe è il distributore italiano specializzato in parti di ricambio per autocarro, veicolo commerciale, bus e rimorchio, con una forte specializzazione sui ricambi motore, cambio e differenziale.

Con oltre 50 anni di esperienza, il gruppo Dubhe offre ai propri clienti una vasta gamma di prodotti sia con marchio proprio che premium.

Grazie all'ampia conoscenza tecnica, produttiva e commerciale delle aziende fondatrici, (Mec-Diesel S.r.l., C.E.I. Costruzione Emiliana Ingranaggi S.p.A. e Lema S.r.l.), Dubhe garantisce elevati standard qualitativi.

ENG

The **Heavybelt** (HB) brand was established in 2020, initiating a research and development process for new product lines that play a central role in the extraordinary maintenance of vehicles. Among these, there are belts, tensioners, and pulleys.

Heavybelt (HB) is a private label distributed by Dubhe Srl.

Dubhe is the Italian distributor specialised in spare parts for trucks, commercial vehicles, buses and trailers, with a strong focus on engines, gearboxes, differentials and their components.

With over 50-years history, Dubhe Group offers a wide product range under private labels and premium brands.

Thanks to the technical, production and commercial knowledge of the founding companies, (Mec-Diesel S.r.l., C.E.I. Construction Emiliana Ingranaggi S.p.A. and Lema S.r.l.), Dubhe ensures high quality standards.

*Per applicazione bus, veicoli commerciali leggeri e pesanti
Suitable for bus, LCV and HDV applications.*

INFO TECNICHE TECHNICAL INFO.

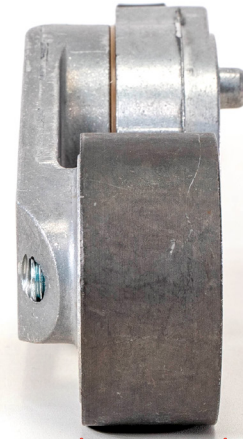

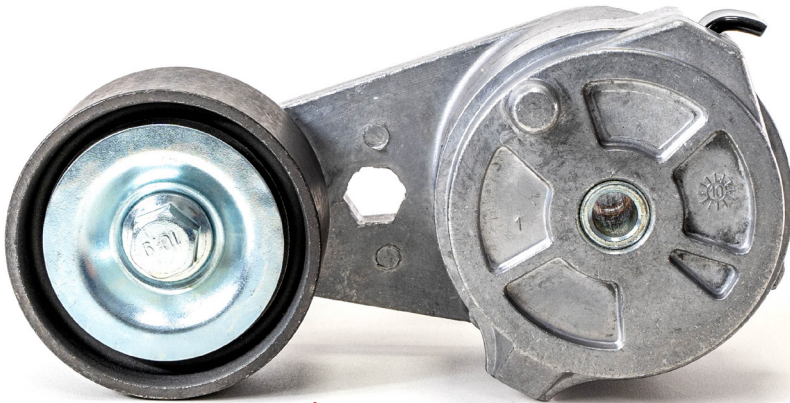

I tendicinghia sono i componenti che, agendo direttamente a contatto della cinghia, provvedono a garantirne la corretta tensione durante l'utilizzo, sia essa per scopi di distribuzione che ausiliari. I prodotti trattati possono essere suddivisi in due categorie: **tendicinghia** e **cuscinetti di rimando** (o galoppini).

Tensioners are the components that, by directly interacting with the belt, ensure their proper tension during use, both for distribution and auxiliary purposes. The treated products can be classified into two categories: tensioners and idler pulleys.

TENDICINGHIA

Lunghezza: viene indicata con la lettera [L]
Length: is made by the letter [L]

Spessore: viene indicato con la lettera [H2]
Height/Thickness: is made by the letter [H2]

Diametro: viene indicato con il simbolo [Ø]
Diameter: is made by the sign [Ø]

Spessore: viene indicato con la lettera [H1]
Height/Thickness: is made by the letter [H1]

TENDICINGHIA

I tendicinghia, che costituiscono la categoria più completa e complessa, sono generalmente composti da una base di supporto fissata solidamente al monoblocco tramite bulloni passanti. La base include un cuscinetto su cui scorre la cinghia e un braccio tenditore. Questo braccio, attraverso un meccanismo che può essere di tipo meccanico, a molla o idraulico, esercita tensione sulla cinghia tramite il cuscinetto.

TENSIONERS

Tensioners, representing the most comprehensive and complex category, are typically composed of a support base firmly connected to the engine block through passing bolts. The base includes an idler pulley on which the belt slides, and a tensioning arm. This arm, through a mechanism that can be mechanical, spring-loaded, or hydraulic, applies tension to the belt through the idler pulley.

SEGNI DI USURA SIGNS OF WEAR.

- Rumorosità o battito causati dalla mancanza di tensione (*molla scarica, pistone idraulico scarico, passaggi dell'olio otturati*);
- Rottura della molla tenditrice a seguito di vibrazioni eccessive della cinghia derivanti da fattori esterni;
- Disallineamento della base con il braccio tenditore a causa della rottura o perdita di tensione della molla interna.
- *Noise or knocking caused by lack of tension (depleted spring, discharged hydraulic piston, blocked oil passages);*
- *Breaking of the tensioning spring due to excessive belt vibrations derived from external factors;*
- *Misalignment of the base with the tensioning arm due to the breaking or loss of tension in the internal spring.*

TENSIONER MARKING EXAMPLE

BRAND CODE PROD. (MM/YY)

Fig. 1

TENDICINGHIA

La scelta più comune tra i costruttori ricade sui tendicinghia a molla, che offrono un ottimo equilibrio tra vantaggi tecnici e costruttivi, senza compromettere la qualità e la durabilità del prodotto stesso.

L'evoluzione tecnica di questa categoria di prodotti ha portato a vantaggi sempre maggiori. Di seguito, i principali:

- Facilità di installazione e smontaggio della cinghia;
- Tensione costante corretta in qualsiasi situazione di utilizzo;
- Smorzamento delle vibrazioni trasmesse dalla cinghia (*applicabile solo a sistemi di tensione mobili come molla o idraulici*);
- Manutenzione ridotta al minimo grazie alla capacità dei tendicinghia di compensare il naturale allungamento della cinghia nel tempo;
- Facilità di sostituzione in caso di problemi.

Un accenno particolare va fatto ai tendicinghia o tendicatena idraulici (Fig. 1), che svolgono la stessa funzione ma sono azionati da un piccolo ammortizzatore installato sul gruppo tenditore o direttamente dalla pressione dell'olio motore.

TENSIONERS

The most common choice among manufacturers is spring-loaded tensioners. They offer an excellent balance between technical and construction advantages without compromising quality and durability.

The technical evolution of this product category has led to increasingly significant benefits. Below, the main ones:

- Ease of belt installation and removal;
- Consistently correct tension in any usage scenario;
- Vibration damping transmitted by the belt (*applicable only to mobile tension systems such as spring or hydraulic*);
- Minimal maintenance thanks to the tensioners ability to compensate for the natural belt elongation over time;
- Ease of replacement in case of issues.

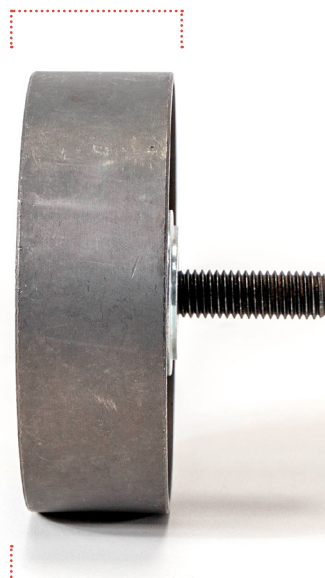

A particular mention should be made of hydraulic tensioners or chain tensioners (Fig. 2), which perform the same type of work but are actuated by a small damper installed on the tensioner assembly or directly by the engine oil pressure.

CUSCINETTI

Diametro: viene indicato con il simbolo [\varnothing]
Diameter: is made by the sign [\varnothing]

Spessore: viene indicato con la lettera [H]
Height/Thickness: is made by the letter [H]

Lunghezza: viene indicata con la lettera [L]
Length: is made by the letter [L]

CUSCINETTI DI RIMANDO

I cuscinetti di rimando, comunemente chiamati galoppini (per analogia di utilizzo con la parola francese *galopin*, che significa messaggero), consistono in una puleggia installata su un cuscinetto, volta a deviare il tratto non tensionato della cinghia per garantirne maggiore aderenza durante la rotazione. Sia i cuscinetti montati sui tendicinghia che i galoppini possono essere realizzati in materiale plastico, acciaio zincato o, più raramente, in alluminio.

IDLER PULLEYS

The idler pulleys consist of a pulley installed on a bearing. They are designed to redirect the slack portion of the belt to ensure greater grip during rotation.

Both the bearings mounted on the tensioners and the idler pulleys can be made of plastic, galvanized steel, or, more rarely, aluminum.

SEGNI DI USURA SIGNS OF WEAR.

- Rumorosità o stridio causati dal consumo del cuscinetto interno al rullo;
- Scioglimento del materiale del rullo (applicabile solo ai rulli in materiale plastico) causato da un innalzamento anomalo delle temperature del monoblocco o dal grippaggio del cuscinetto interno;
- Rotazione fuori asse causata dal consumo del cuscinetto interno al rullo.
- Noise or squeaking caused by the wear of the internal bearing in the roller;
- Melting of the roller material (only applicable to plastic rollers) due to abnormal temperature increase in the crankcase or seizing of the internal bearing;
- Off-center rotation caused by the wear of the internal bearing in the roller.

Cinghie trasmissione Transmission belts.

*Per applicazione bus, veicoli commerciali leggeri e pesanti
Suitable for bus, LCV and HDV applications.*

	Thickness [H]	Width [W]	Angle [A]	Angle symmetry [A/2]
AVX10	8.0±0.8mm	10.0±0.5mm	36°±2.0	a ₁ : 18°±1.5 a ₂ : 18°±1.5
AVX13	8.0±0.8mm	13.0±0.5mm	36°±2.0	a ₁ : 18°±1.5 a ₂ : 18°±1.5

CINGHIE TRAPEZOIDALI DENTELLATE

È la cinghia storica per eccellenza. Nonostante sia una cinghia con un numero minore di applicazioni rispetto al passato, la cinghia AVX HEAVYBELT rimane sempre un prodotto altamente tecnologico costruito seguendo gli standard qualitativi più alti. Il risultato è un prodotto che non ha nulla da invidiare al ricambio OE, sia come costruzione che come durata nel tempo.

Le cinghie AVX HEAVYBELT sono disponibili con larghezza da 10 mm e da 13 mm.

V-BELTS RAW EDGE. MOULDED COGGED

AVX is the main historical belt. Despite its lower number of applications compared to the past, the AVX HEAVYBELT belt is a high technological product, manufactured following the highest standards of quality.

The result is a long-lasting product, whose construction can be totally compared to the OEM product.

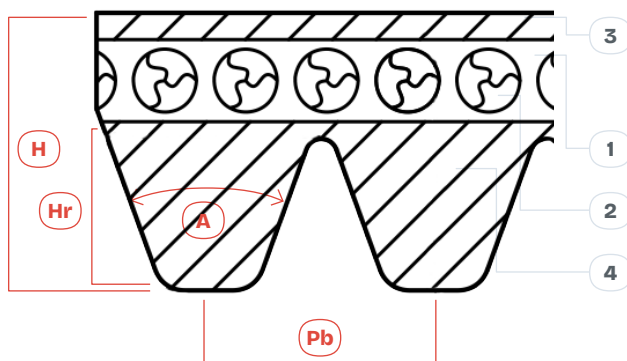

AVX HEAVYBELT belts are available in 10 mm and 13 mm width.

CINGHIE MULTI-GOLA

Le cinghie POLI-V HEAVYBELT sono tutte costruite in EPDM per ottenere un prodotto flessibile e resistente alle alte temperature (-40 °C/+120 °C), nel rispetto degli standard qualitativi di precisione dei profili che di lunghezza.

Il risultato è una cinghia dalle elevate prestazioni, lunga durata e alta resistenza, quanto richiesto da un ricambio per il settore TRUCK e BUS.

All'interno della gamma HEAVYBELT POLI-V sono presenti anche tipologie di cinghie elastiche (EPK), qualora fosse richiesto il montaggio senza tenditore.

RIBBED BELTS

POLI-V HEAVYBELT belts are manufactured in EPDM, a temperature resistant rubber (-40 °C/+120 °C), which guarantees the best flexibility, in full compliance with the highest quality standards for both profiles precision and length control.

The result is a high performing, long-lasting and resistant belt, the best solution for our trucks and buses spare parts sector.

Inside the HEAVYBELT POLI-V assortment are also available ELASTIC BELT (EPK), to supply the request of an assembly without tension.

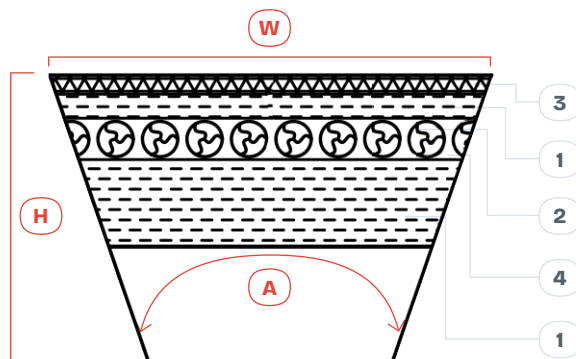

1. ADHESION EPDM RUBBER COMPOUND
2. POLYESTER CORD
3. COVER RUBBER (EPDM)
4. BOTTOM RUBBER (EPDM)

CINGHIE TRAPEZOIDALI DENTellate

Cinghie altamente performanti studiate espressamente per gli impianti di condizionamento dei principali bus.

Le cinghie XPB HEAVYBELT sono state progettate e costruite per resistere alle alte temperature e all'uso critico in applicazioni su autobus.

Sono disponibili nella versione singola e nella versione multigola.

V-BELTS RAW EDGE. MOULDED COGGED

High-performing belts expressly manufactured for the airconditioning of the most important buses.

XPB HEAVYBELT belts are specifically manufactured to resist to high temperatures and for bus applications.

These belts are available in single or Poly-V version.

La costante ricerca dei migliori prodotti sul mercato e l'elevata competenza tecnica ci hanno permesso di realizzare un catalogo interamente dedicato alle componenti che rivestono un ruolo centrale nella manutenzione straordinaria del veicolo. Trova facilmente cinghie, pulegge e tenditori grazie alla ricerca per foto e per codice OEM.

Our technical expertise and the ongoing research of the best possible product have led to the development of a catalogue entirely focused on components that play a central role in the extraordinary maintenance of vehicles. Get the easiest and fastest search possibile by using the photographic and OEM indexes.

Distributore ufficiale in Italia

Dubhe S.r.l.
Via Sestriere, 3 - 10060 Candiolo (TO) - Italy
+39 011 397.21.32
sales@dubhegroup.com

Official distributor abroad

Le.ma S.r.l.
Via del vetraio, 26 - 40138 Bologna (BO) - Italy
